PERGAMON

JOURNAL OF CRIMINAL JUSTICE

The *Journal of Criminal Justice* is an international journal intended to fill the present need for the dissemination of new information, ideas, and methods to both practitioners and academicians in the criminal justice area. The *Journal* is concerned with all aspects of the criminal justice system in terms of their relationships to each other. Although materials are presented relating to crime and the individual elements of the criminal justice system, the emphasis of the *Journal* is to tie together the functioning of these elements and to illustrate the effects of their interactions. Papers that reflect the application of new disciplines or analytical methodologies to the problems of criminal justice are of special interest.

Since the purpose of the *Journal* is to provide a forum for the dissemination of new ideas, new information, and the application of new methods to the problems and functions of the criminal justice system, the *Journal* emphasizes innovation and creative thought of the highest quality.
